

COM 2023 Poster and Video Recording Task

Online:

To ensure that attendees can view presentations they may have missed, all poster presenters are encouraged to upload their posters to the online conference platform.

Logging In to the Online Conference Platform

You have the option to record a video to accompany your poster. To do so, log in to the Abstract Submission. Locate the red "Record Presentation" button. Follow the instructions for recording. We highly recommend that you review the brief video in the Recording Instruction Tools section below. Posters and videos can be submitted at the same time or separately.

For best results, submit your poster as a high-resolution PDF in landscape format. Ideal online poster dimensions are 1920 px by 1080 px.

Deadline

Please plan to have your poster uploaded and optional video recorded and uploaded by **August 15, 2023**.

We require sufficient time to review each video to ensure a seamless experience for all participants. If you opt to submit a video, take advantage of the opportunity to practice and re-record your presentation until you are satisfied with the final result.

We strongly recommend uploading and recording your video well in advance of the deadline. This will enable us to provide better customer service and support, and it will help prevent potential slowdowns or disruptions on the web during periods of heavy uploads.

Recording Instructions

To ensure the best results and avoid any errors, **we strongly recommend using the latest version of Google Chrome to record your** presentation through the online conference platform. However, if you prefer to record on another platform (such as Zoom, Webex, GoToMeeting, or PowerPoint), you can upload the MP4 file using the "Upload Presentation Video" button.

For details on how to record your virtual presentation using the virtual conference platform tool, please watch the video within this [support document](https://support.xcd.com/portal/en/kb/articles/record-a-presentation-in-the-submission-platform) or paste this link into your browser: <https://support.xcd.com/portal/en/kb/articles/record-a-presentation-in-the-submission-platform>.

Please do not exceed the 5-minute time limit. Doing so may result in a request that you re-record your presentation, which we prefer not to do.

Relax, give yourself an opportunity to practice, and enjoy sharing your presentation.

Questions

If you have any concerns or questions during the recording process, please click on the support button. We will respond as quickly as possible, but please allow for a 1–2-day response time to accommodate weekends, time zone differences, and holidays.

We look forward to receiving your poster and optional pre-recorded video presentation and appreciate your participation in the 62nd Annual Conference of Metallurgists!
