

This document uses the term "chapter" or "Chapters". This term refers to your paper/extended abstract. Please number your chapter as chapter 1 then set the heading levels accordingly. Use 10-12 pt font size throughout the paper.

Contributor Guidelines

Springer will be producing the proceedings in which your contribution appears in print and electronic formats. This is reflected in the preparation of the manuscript and means that all (Word, LaTeX) manuscript files we receive will be formatted to suit the book template using XML and re-formatted according to the Springer branded style. Accordingly, it is no longer necessary for you to spend valuable time putting the final touches to the manuscript.

However, we have compiled a list of key style points on manuscript structure, figure resolution, reference style, which – if considered during manuscript preparation – will help facilitate and speed up the publication process for your book.

Attached please find a summary of style points pertinent to paper/extended abstract authors culled from Springer's style guide for book authors and editors.

For the most complete list of resources, including information on permissions and making your proceedings paper Open Access, please visit the [Book Manuscript Guidelines](#) on [springer.com](#).

Publishing Ethics

Springer Nature is committed to upholding the integrity of the scientific record, and as a member follows the [Committee on Publication Ethics \(COPE\) guidelines](#) on how to deal with potential acts of misconduct. It is therefore important that the work you submit has been carried out in line with international standards for responsible research publication. We advise you to visit and review our [Book Publishing Policies and Guidelines](#) to adhere to the publishing standards before submitting your manuscript.

Corresponding authors will also be receiving our Proceedings Contributor Agreement form. All authors submitting papers to a contributed volume must grant us specific permission to publish the work. This is a legal requirement that arises from provisions of copyright law and acts as additional protection for you. Each corresponding author should enter the title of their paper or extended abstract as well as the names of all the authors and the name of the corresponding author (if more than one author contributes) at the top of the form and sign it. Important: details of the chapter authors (sequence, names, name and affiliation of corresponding author) given in the Contributor Agreement should be complete, final and correspond to the details given in the manuscript. As this is a legal document, we cannot accept changes at a later stage and ask for your understanding in this matter.

A few points to consider before finalizing the manuscript.

- **Permissions:** If you intend to use any figure, table, or lengthy text passage that has been previously published in a copyrighted source, you *must* formally request permission to use the material from the original publisher. *This also applies to material previously published by Springer.* To obtain permission to use third-party material in the manuscript visit the Rights Holder website or the [Copyright Clearance Center](#). If the material is not found, please exert your best efforts to use our [Permissions Request Form](#) and/or [Release Request Form](#) (to obtain permission from interviewees or other identifiable individuals or the owners of identifiable property in source material) for your request. If the rights-holder issues their own form, please ensure that the document they provide includes all Required Rights listed in the ‘Guide to Obtaining Permissions’ section in our [Springer Nature Third Party Permissions Guidelines](#)
- **Abstracts:** All the chapters should include a succinct abstract—a preview for your chapter—that contains approximately 150-200 words/11 lines.
- **Keywords:** In the beginning of your chapter, please include 5-10 keywords for easy search optimization of the chapters, online. This will also be used in the generation of subject index.
- **Corresponding author information:** Below the title in the chapter-opening page, please include all the authors’ details, including the department, university, city, country and e-mail ID. The corresponding authors (the one who will be in contact with us during the proofing stage) needs to be highlighted using an **asterisk symbol**.

Accessibility

In accordance with the EU Accessibility Act and our commitment to [Accessibility](#) at Springer Nature, your publication will need to be accessible to all readers. Your content has to adhere to the Web Content Accessibility Guidelines (WCAG) that Springer Nature follows in regard to the (technical) layout and the presentation of the electronic versions.

According to these guidelines, textual substitutes are required for non-text content, such as figures, illustrations, and tables in image formats. As these texts are actual content, we request that alternative texts (also known as alt texts) for all figures, illustrations, and images are submitted with your final manuscript in an Excel file.

- *Alternative text* is a brief and objective description of the content of an image and/or of the purpose it serves in a digital format. Alt text is crucial for individuals using screen reader technology, as well as for those trying to comprehend the content of an image if it doesn't load.
- Alt text is not the same as a caption, which typically provides information that is not already in the visual element itself.
- For more tips on how to write good alt text, please check our document [How to Write Good Alt Text](#).

Key Style Points: Headings

1 The decimal system of numbering helps to clearly identify the heading levels.

- ▶ If the chapters are numbered, the first number (from the left) is the chapter number.

2 Up to five heading levels are possible within a chapter.

- ▶ The first three heading levels within the chapter are numbered.
- ▶ In addition to numbered headings, two more (lower) unnumbered heading levels are possible.
- ▶ Headings must always keep to the hierarchical sequence. For example, it is not possible to use a heading 4 immediately after a heading 2.

3 Run-in headings are set immediately above/at the beginning of a paragraph.

- ▶ They are formatted in bold or italics.
- ▶ Run-in headings can be used at any hierarchical level.

4 Heading style

- ▶ Headings (including run-in headings) have no end punctuation or period after the heading number.
- ▶ All major words in a heading are capitalized. Articles, conjunctions, and prepositions that are four letters or less in length are not capitalized.

5 Chapter or section numbers (not page numbers) are used for cross-references. They will be linked in the ebook.

Postero die castra ex eo loco movent. Idem facit Caesar equitatumque omnem, ad numerum quattuor milium, quem ex omni provincia et Haeduis atque eorum sociis coactum habebat, praemittit, qui videant quas in partes hostes iter faciant. Qui cupidius novissimum agmen insecuti alieno loco cum equitatu Helvetiorum proelium committunt; et pauci de nostris cadunt.

Quo proelio sublata Helvetii, quod quingentis equitibus tantam multitudinem equitum propulerant, audacius subsistere non nunquam et novissimo agmine proelio nostros lacessere coeperunt. Caesar suos a proelio continebat, ac satis habebat in praesentia hostem rapinis, pabulationibus populationibusque prohibere. Ita dies circiter XV iter fecerunt uti inter novissimum hostium agmen et nostrum primum non amplius quinque aut senis milibus passuum interesset.

Quibus rebus cognitis, cum ad has suspiciones certissimae res accederent, quod per fines Sequanorum Helvetios traduxisset, quod obsides inter eos dandos curasset, quod ea omnia non modo iniussu suo et civitatis sed etiam inscientibus ipsis fecisset, quod a magistratu Haeduorum accusaretur, satis esse causae arbitrabatur quare in eum aut ipse animadverteret aut civitatem animadvertere iuberet. His omnibus rebus unum repugnabat, quod Diviciaci fratris summum in populum Romanum studium, summum in se voluntatem, egregiam fidem, iustitiam, temperantiam cognoverat; nam ne eius supplicio Diviciaci animum offenderet verebatur.

Diviciacus multis cum lacrimis Caesarem complexus obsecrare coepit.

2 **20.2.1 Heading 2**

Diem ex die ducere Haedui: conferri, comportari, adesse dicere. Ubi se diutius duci intellexit et diem instare quo die frumentum militibus metiri oporteret, convocatis eorum principibus, quorum magnam copiam in castris habebat, in his Diviciaco et Lisco, qui summo magistratu praecerat, quem vergobretum appellant Haedui, qui creatur annuus et vitae necisque in suos habet potestatem, graviter eos accusat, quod, cum neque emi neque ex agris sumi possit, tam necessario tempore, tam propinquis hostibus ab iis non sublevetur, praesertim cum magna ex parte eorum precibus adductus bellum susceperit.

2 **20.2.1.1 Heading 3**

Tum demum Liscus oratione Caesaris adductus quod antea tacuerat proponit: esse non nullos, quorum auctoritas apud plebem plurimum valeat, qui privatim plus possint quam ipsi magistratus. Hos seditiosa atque improba oratione multitudinem deterrere, ne frumentum conferant quod debeant: praestare, si iam principatum Galliae obtinere non possint, Gallorum quam Romanorum imperia perferre, neque

quod nisi rogatus non venerit et quod bellum non intulerit sed defenderit. Se prius in Galliam venisse quam populum Romanum. Numquam ante hoc tempus exercitum populi Romani Galliae provinciae finibus egressum. Quid sibi vellet? Cur in suas possessiones veniret?

Run-in Heading

Helvetii omnium rerum inopia adducti legatos de deditione ad eum miserunt. Qui cum eum in itinere convenissent seque ad pedes proiecissent suppliciterque locuti flentes pacem petissent, atque eos in eo loco quo tum essent suum adventum expectare iussisset, paruerunt.

5 **Run-in Heading** Quod fratres a senatu Haeduos appellatos diceret, non se tam barbarum neque tam imperitum esse rerum ut non sciret neque bello Allobrogum proximo Haeduos Romanis auxilium tulisse neque ipsos in iis contentionibus quas Haedui secum et cum Sequanis habuissent auxilio populi Romani usos esse. Debere se suspicari simulata Caesarem amicitia, quod exercitum in Gallia habeat, sui opprimendi causa habere (see Sect. 20.3).

Qui nisi decedat atque exercitum deducat ex his regionibus, sese illum non pro amico sed pro hoste habiturum. Quod si eum interfecerit, multis sese nobilibus principibusque populi Romani gratum esse facturum (id se ab ipsis per eorum nuntios compertum habere), quorum omnium gratiam atque amicitiam eius morte redimere posset. Quod si decedisset et liberam possessionem Galliae sibi tradidisset, magno se illum praemio remuneraturum et quaecumque bella geri vellet sine ullo eius labore et periculo confecturum.

2 **Heading 4**

Multa a Caesare in eam sententiam dicta sunt quare negotio desistere non posset: neque suam neque populi Romani consuetudinem pati ut optime meritis socios desereret, neque se iudicare Galliam potius esse Arioivisti quam populi Romani. Bello superatos esse Arvernos et Rutenos a Q. Fabio Maximo, quibus populus Romanus ignovisset neque in provinciam redegit neque stipendium posuisset. Quod si antiquissimum quodque tempus spectari oporteret, populi Romani iustissimum esse in Gallia imperium; si iudicium senatus observari oporteret, liberam debere esse Galliam, quam bello victam suis legibus uti voluisset (Nydyck et al. 1961).

2 **Heading 5**

Dum haec in conloquio geruntur, Caesari nuntiatum est equites Arioivisti propius tumulum accedere et ad nostros adequitare, lapides telaque in nostros coicere. Caesar loquendi finem fecit seque ad suos recepti suisque imperavit ne quod

Abbreviations, Numbers, Units, and Equations

- 1 Abbreviations are spelled out the first time used with the abbreviation in parentheses.
- 2 If used in connection with numbers, the following items are abbreviated:
 - ▶ Units (SI units are preferred)
 - ▶ Cross references to other parts of the manuscript or another publication (Vol., Chap., Sect., Fig., Eq.); they are not abbreviated if they appear at the beginning of a sentence
- 3 Digits are used for all numbers larger than ten.
 - ▶ When a number is used with a unit, the numeral is used and the unit is abbreviated.
 - ▶ Commas are used to separate thousands and the decimal point to separate decimals.
 - ▶ In a range, all digits are repeated.
 - ▶ An en dash is used in ranges, an em dash for setting off parenthetical expressions.
- 4 Displayed equations are numbered chapter-wise with the equation number to the right of the equation.
 - ▶ Within equations, numbers, punctuation, parentheses, common function names, units, or mathematical signs are set upright; variables are set in italics, and vectors are set in bold.
 - ▶ If the equation is part of a sentence, punctuation follows normal language rules.
- 5 Text references to equations take the forms
 - ▶ “Eq. 6” or “Eqs. 6 – 8”
 - ▶ In physics and computer science, “(6)” or “(6–8)”, i.e., in parentheses without the word “Eq.”

20 Chapter Title 15

Gallia, ille minimum propter adulescentiam posset, per se crevisset; quibus opibus ac nervis non solum ad minuendam gratiam, sed paene ad perniciem suam uteretur. Sese tamen et amore fraterno et existimatione vulgi commoveri. Quod si quid ei a Caesare gravius accidisset, cum ipse eum locum amicitiae apud eum teneret, neminem existimatum non sua voluntate factum; qua ex re futurum uti totius Galliae animi a se averterentur. Overactive bladder (OBA) afflicts over 33 million women, eius dextram prendit; consolaturs rogat finem orandi faciat; tanti eius apud se gratiam esse ostendit uti et rei publicae iniuriam et suum dolorem eius voluntati ac precibus condonet. Dumnorigem ad se vocat, fratrem adhibet; OBA in eo reprehendat ostendit; quae ipse intellegat, quae civitas queratur proponit; monet ut in reliquum tempus omnes suspiciones vitet; praeterita se Diviciaco fratri condonare dicit. Dumnoriges ad se vocat:

- Milia passuum XVIII murum in altitudinem pedum sedecim fossamque perducit
- Eo opere perfecto praesida disponit, castella communit, quo facilius, si se invito transire conentur, prohibere possit
- Ubi ea dies quam constituerat cum legatis venit et legati ad eum revererunt
- Negat se more et exemplo populi Romani posse iter ulli per provinciam dare et, si vim lacere conentur, prohibeturum ostendit.

Caesar, quod neque conloquium interposita causa tolli volebat neque salutem suam Gallorum equitatu committere audebat, commodissimum esse statuit omnibus equis Gallis equitibus detractis eo legionarios milites legionis X., cui quam maxime confidebat, imponere, ut praesidium quam amicissimum, si quid opus factu esset, haberet. Quod cum fieret, non irridicule quidam ex militibus X. legionis dixit; plus quam pollicitus esset Caesarem facere.

$$f(x) = a_0 + \sum_{n=1}^{\infty} \left(a_n \cos \frac{n\pi x}{L} + b_n \sin \frac{n\pi x}{L} \right) \quad (20.1)$$

Ita ancipiti proelio diu atque acriter pugnatum est (Sect. 20.3). Diutius cum sustinere impetus non possent, alteri se, ut cooperant, in montem receperunt, alteri ad impedimenta et carros suos se contulerunt in Chap. 15.

Nam hoc toto proelio, cum ab hora septima ad vespertinum pugnatum sit, aversum hostem videre 20 ml potuit. Ad multam noctem etiam ad impedimenta pugnatum est, propterea quod pro vallo carros obiecerunt et e loco superiore in nostros venientes tela coiciebant et non 5.3 s inter carros rotasque mataras ac tragulas subiciebant nostrosque vulnerabant. Diu cum esset pugnatum, $A = \pi r^2$ impedimentis castrisque nostri potiti sunt. Ibi Orgetorigis filia atque unus e filiis captus est. Ex eo proelio circiter hominum milia 12,000 superfuerunt eaque tota nocte continenter ierunt; 12 patients died and quarto pervenerunt, cum et propter vulnera militum et propter sepulturam occisorum nostri eos sequi non potuissent. Caesar ad Lingonas litteras nuntiosque misit, ne eos frumento neve alia re iuvarent: qui si iuvisset, se eodem loco quo Helvetios habiturum. Ipse triduo intermisso cum omnibus copiis eos sequi coepit (2005–2010).

Run-in Heading Helvetii omnium rerum inopia adducti legatos de deditione ad eum miserunt. Qui cum eum in itinere convenissent seque ad pedes proiecissent suppliciterque locuti flentes pacem petissent, atque eos in eo loco quo tum essent suum adventum expectare iussisset, paruerunt (Eq. 20.1). Eo Caesar pervenit, obsides, arma, servos qui ad eos perflugissent, poposcit.

Proof We note that

$$a^{-1} + (b^{-1} - a)^{-1} = a^{-1}[(b^{-1} - a) + a](b^{-1} - a)^{-1} = a^{-1}b^{-1}(b^{-1} - a)^{-1}, \quad 4$$

so $(a^{-1} + [b^{-1} - a]^{-1})^{-1} = (b^{-1} - a)ba = a - aba$. □

Ita ancipiti proelio diu atque acriter pugnatum est. Diutius cum sustinere nostrorum impetus non possent, alteri se, as the solution for (20.1).

Quod ubi Caesar rescitit, quorum per fines ierant his uti conquirerent et reducerent, si sibi purgati esse vellent, imperavit; reductos in hostium numero habuit; reliquos omnes obsidibus, armis, perfugis traditis 12.5–14.5 mm accepit. Helvetios, Tulingos, Latobrigos in fines suos, unde erant profecti, reverti iussit, et, quod omnibus frugibus amissis domi nihil erat quo famem tolerarent, Allobrogibus imperavit ut iis frumenti copiam facerent (Themmen and Huhtaniemi 2000); ipsos oppida vicoseque, quos incenderant, restituere iussit. Id ea maxime ratione fecit, quod noluit eum locum unde Helvetii discesserant vacare, ne propter bonitatem agrorum Germani, qui trans Rhenum incolunt, suis finibus in Helvetiorum fines transirent et finitimi Galliae provinciae Allobrogibusque essent. Boios petentibus Haeduis, quod egregia virtute erant cogniti, ut in finibus suis conlocarent, concessit; quibus illi agros dederunt quosque postea in parem iuris libertatisque condicionem atque ipsi erant receperunt.

Dum ea conquiruntur et conferuntur, circiter hominum milia VI eius pagi qui Verbigenus appellatur, sive timore perterriti, ne armis traditis supplicio adficerentur, sive spe salutis inducti, quod in 20 °C multitudine dediticorum suam fugam aut occultari aut omnino ignorari posse existimarent, prima nocte e castris Helvetiorum egressi ad Rhenum finesque Germanorum contenderunt (Snyder 1985).

Quod ubi Caesar rescitit, quorum per fines ierant his uti conquirerent et reducerent, si sibi purgati esse vellent, imperavit; reductos in hostium numero habuit; reliquos omnes obsidibus, armis, perfugis traditis in deditionem accepit. Helvetios, Tulingos, Latobrigos in fines suos, unde erant profecti, reverti iussit, et, quod omnibus frugibus amissis domi nihil erat quo famem tolerarent, Allobrogibus imperavit ut iis frumenti copiam facerent (starting 3 January 2010); ipsos oppida vicoseque, quos 1/12 non incenderant, restituere iussit. Id ea maxime ratione fecit, quod noluit eum locum unde Helvetii discesserant vacare, ne propter bonitatem agrorum Germani, qui trans Rhenum incolunt, suis finibus in Helvetiorum fines transirent et finitimi Galliae provinciae Allobrogibusque essent. Boios petentibus Haeduis, quod egregia virtute erant cogniti, ut in finibus suis conlocarent, concessit; quibus illi agros dederunt quosque postea in parem iuris libertatisque condicionem atque ipsi erant receperunt.

Key Style Points: Formal Style Text Formatting

- 1 Didactic elements such as examples, questions or exercises, summaries or key messages that repeat can be set in a gray box. Please indicate in your manuscript where the box starts and ends, by adding "box[title] starts" and "box[title] ends".
Box[title]: The box title is the code for typesetting and not necessarily the text heading of the box. Possible box titles are e.g. *Example*, *Definition*, *Question*, *Warning*, *Background Information*.
- 2 Emphasized words or phrases in running text are set in italics.
- 3 Italics are used for species and genus names, mathematical/physical variables, prefixes in chemical compounds, and foreign words (if not yet in general use).
- 4 Foreign words being in general use (e.g., *ad hoc*, *laissez-faire*, *a priori*, *in vivo*, *et al.*, etc.) are formatted upright.
- 5 Bold formatting is used for run-in headings.
- 6 Small capitals indicate optical activity (D- and L-dopa).
- 7 Sans serif (e.g., Arial) and nonproportional font (e.g., Courier) distinguish the literal text of computer programs from running text.
- 8 Small print is used for displayed quotations. Poetry will be similarly set off from the text, but will be typeset so that the spacing and line breaks match the original.
- 9 Footnotes are numbered chapter-wise and are always placed at the bottom of the page (not at the end of the chapter).
 - ▶ They give additional information, but they should never include the bibliographic details of a reference. They should also not contain any figures or tables.
 - ▶ Exceptions may apply depending on the subjects law and humanity science. Please check with your production contact.
- 10 Reference citations are given in running text either with author name(s) and year of publication in parentheses or with numbers in brackets.

Key Style Points: Tables and Lists

- 1 **Table captions**
 - ▶ Table captions begin with the term **Table** in bold type, followed by the table number, also in bold type.
 - ▶ Previously published material is identified by a reference to the original source at the end of the caption.
 - ▶ Table captions have no end punctuation and no period after the table number.
- 2 **Table rules are created automatically by the typesetting program. Manually inserted rules or shading of table rows and table cells cannot be retained.**
- 3 **Table footnotes appear in the following sequence:**
 - ▶ Comments of a general nature
 - ▶ Explanations of abbreviations in a run-in list
 - ▶ Footnotes, arranged first by asterisk (p values), then by lowercase letter
- 4 **In the PDF version tables will appear on the top or bottom of the page as close as possible to their first citation.**
- 5 **Lists can have one or two levels:**
 - ▶ Main items (indicated by a bullet point or a number)
 - ▶ Subitems (indicated by a dash)
- 6 **Pairs of terms and their definitions can be displayed in a list rather than a table.**

4 prohibere possent; alterum per provinciam nostram, multo facilius atque expeditius, propterea quod inter fines Helvetiorum et Allobrogum, qui nuper pacati erant, Rhodanus fluit isque non nullis locis vado transitur. Extremum oppidum A... est proximunque Helvetiorum finibus Genava (Tables 20.1 and 20.2). ... eo oppido pons ad Helvetios pertinet. Allobrogibus sese vel persuasuros, quod nondum bono animo in populum Romanum viderentur, existimabant vel vi coacturos ut per suos fines eos ire paterentur. Omnibus rebus ad profectiorem comparatis diem dicunt, qua die ad ripam Rhodani omnes conveniant. Is dies erat a. d. V. Kal. Apr. L. Pisone, A. Gabinio consulibus.

Caesari cum id nuntiatum esset, eos per provincia nostram iter facere conari, maturat ab urbe proficisci et quam maximis potest itineribus in Galliam ulteriorem

10 G.J. Caesar

5 Interea ea legione quam secum habebat militibusque, qui ex provincia convenerant, a lacu Lemanno, qui in flumen Rhodanum influit:

- Ad montem Iuram, qui fines Sequanorum ab Helvetiis dividit
 - Eodem die ab exploratoribus certior factus hostes sub monte consedisse milia passuum ab ipsius castris octo, qualis esset natura montis.
 - Renuntiatum est facilem esse.
- Ubi ea dies quam constituerat cum legatis venit et legati ad eum reverterunt
- Negat se more et exemplo populi Romani posse iter ulli per provinciam dare et.

His Caesar ita respondit: eo sibi minus dubitationis dari, quod eas res quas legati Helvetii commemorassent memoria teneret, atque eo gravius ferre quo minus merito populi Romani accidissent; qui si alicuius iniuriae sibi conscius fuisset, non fuisse difficile cavere; sed eo deceptum, quod neque commissum a se intellexeret quare timeret neque sine causa timendum putaret (Fig. 20.4). Quod si veteris contumeliae oblivisci vellet, num etiam recentium iniuriarum, quod eo invito iter per provinciam per vim temptassent, quod Haeduos, quod Ambarros, quod Allobrogas vexassent, memoriam deponere posse? Quod sua victoria tam insolenter gloriarentur quodque tam diu se impune iniurias tulisse admirarentur, eodem pertinere.

6 Primus Ad montem Iuram, qui fines Sequanorum ab Helvetiis dividit.
 Secundus Milia passuum XVIII murum in altitudinem pedum sedecim fossamque perducit.
 Tertius Eo opere perfecto praesida disponit, castella communit, quo facilius, si se invito transire conentur, prohibere possit.

Diviciacus multis cum lacrimis Caesarem complexus obsecrare coepit ne quid gravius statueret (20–30 %): scire illa esse vera—nec quemquam ex eo plus quam se doloris capere—propterea quod, cum ipse gratia plurimum domi atque in reliqua. Cum ea ita sint, tamen, si obsides ab iis sibi dentur, ut ea quae pollicentur facturos intellegat, et si Haeduis de iniuriis quas ipsis sociisque eorum intulerint, item si Allobrogibus satis faciunt, sese cum iis pacem esse facturum. Divico respondit: ita Helvetios a maioribus suis institutos esse uti obsides accipere, non dare, consuerint; eius rem populum Romanum esse testem. Hoc responso dato discessit (Teilmann et al. 2005).

Key Style Points: Figures and Illustrations

1 Figure captions

- ▶ Figure captions begin with the term **Fig.** in bold type, followed by the figure number, also in bold type.
- ▶ Figure parts are identified by lowercase letters in bold.
- ▶ Letters or words identifying specific positions or items in a figure are italicized.
- ▶ Previously published material is identified by a reference to the original source at the end of the caption.
- ▶ Figure captions have no end punctuation and no period after the figure number.

2 In the PDF version figures will appear at the top or bottom of the page as close as possible to their first citation.

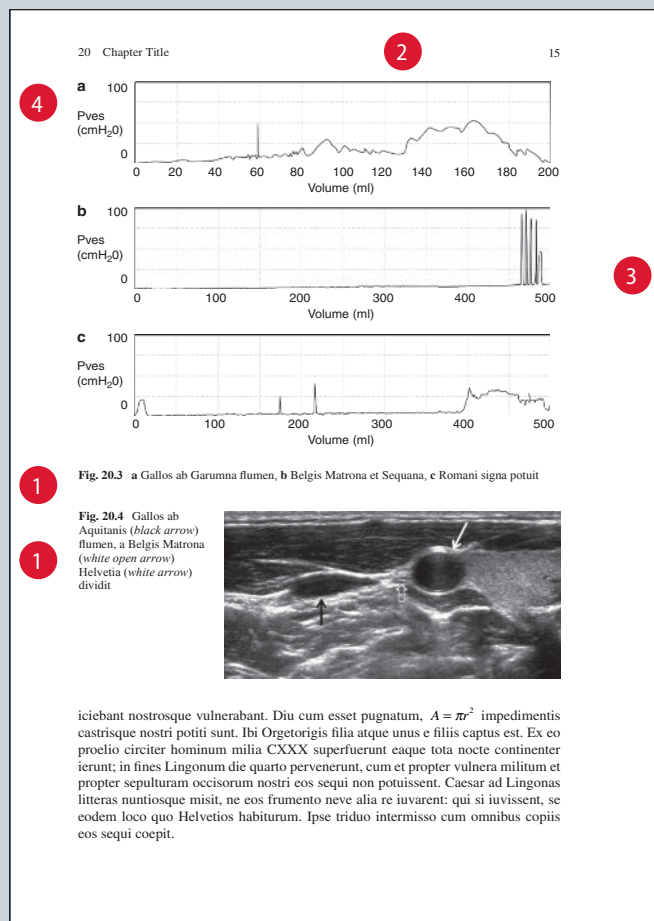

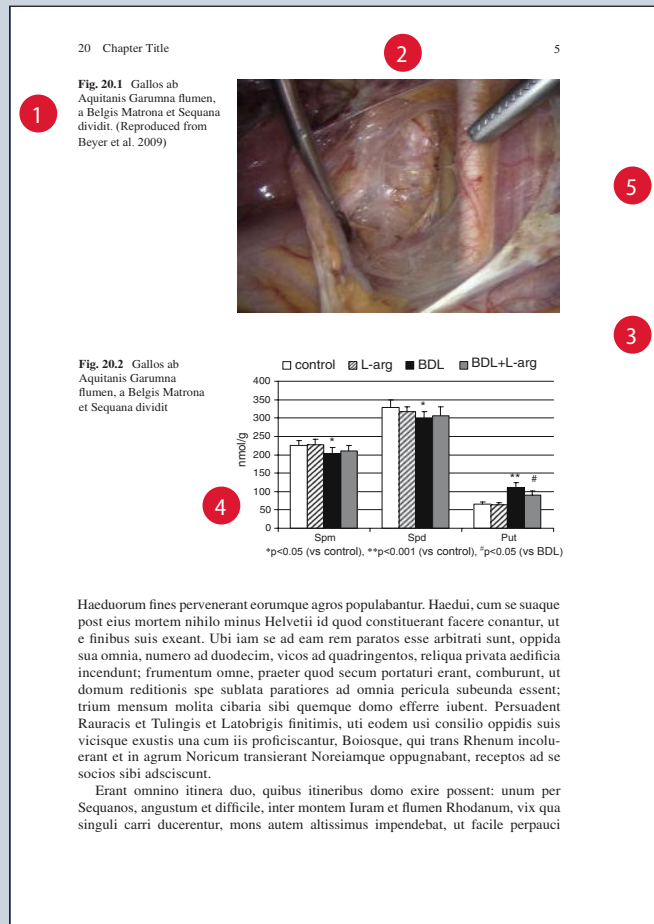

3 Figure size

- ▶ 78 mm wide with the figure placed on the right and the caption on the left.
- ▶ 119 mm wide with the caption placed below the figure.

4 Figure lettering and labeling

- ▶ Minimum size of 2 mm (6 pt) for lettering.
- ▶ Part figure labels in lowercase letters.

5 Color figures will appear in color in the eBook but will usually be printed in black and white.
